4 CAVEATS

- **estimates, not DAW settings**
  126 BPM and the ~24 s shift come from the 37.9 s snippet; check the project file
- **snippet ≠ full arrangement**
  37.9 s of 7:38; rest not transcribed

to scale: snippet vs full track (position unknown)

- **keep the build order**
  synth + percussion first, low end later; reversed loses the "arrival" feeling
