which layers carry the track, and where the 61 s snippet stops

~126 BPM (est.) | 4/4 | instrumental | no lead melody

2 SOUND LAYERS (high → low)

MELODY — none
no standalone lead; groove-led identity

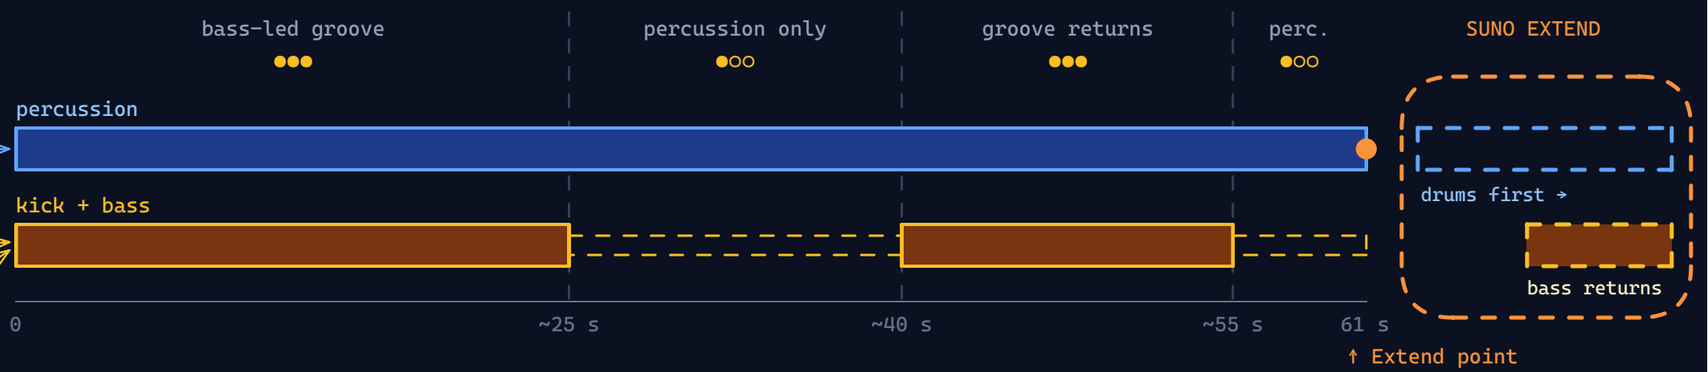

PERCUSSION
conga/tom strikes · snare rolls · clipped hats

BASS
deep · elastic · syncopated figure

KICK
tight · repetitive four-on-the-floor

mood: funky · hypnotic · playful · underground · percussive

3 SNIPPET MAP 0 → 61 s (estimated, unverified)

the snippet ENDS in a percussion passage → continue the drums briefly, then bring back kick + bass. A new intro would break continuity.

4 CAVEATS

- ~126 BPM and all section times = analysis estimates (listening + low-frequency energy) — confirm in a DAW
- Free-plan trim to < 60 s: cut from the START — the 55–61 s percussion ending is what Extend continues
- ●●● / ●○○ = relative low-end presence, not loudness · dashed = reduced or Suno-generated
