2 IDENTITY = BASS ⇔ FILLS CONTRAST

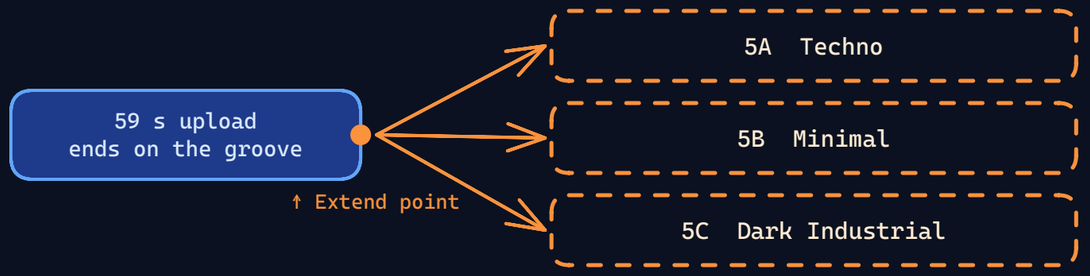

3 GUARDRAILS — keep in every take

- 1 rounded, bouncing, repeating bass motif
- 2 firm, steady techno kick
- 3 rapid tom/conga-like fills, syncopated strikes
- 4 restrained, repeating tonal motif
- 5 tight ticking hats, clipped claps
- 6 dense drum development that resolves into a simpler groove

traits = analysis estimate from the snippet,
not the DAW project · rig tags don't say which
instrument made which sound

4 GOAL: CONTINUE WITH EXTEND, NOT RECREATE

same upload, one direction per run

sage solo → its snippet ends in a percussion passage
Techtoon → its snippet ends on the groove
